

SNOZZLE TRAINING SIMULATOR

D.P. Associates

Intuitive, Intelligent and Diverse Training Solutions

“Real-world Snozzle techniques; efficiently reducing training costs and time”

The Snozzle Crash Rescue Training Simulator from Technologies is the perfect tool for learning complicated, real-world Snozzle techniques; efficiently reducing training costs and time.

BASIC EDITION

- Simulator Introduction: controlling the view, driving the truck and entering the 3 attack modes.
- Voice over tutorial narration
- Truck configurations include Snozzle and Rhino.
- Target practice
- Measured fluids that can be expended.
- Student log-in and training records
- Advanced attack mode enabled.

PREMIUM EDITION

- Includes all Basic features plus:
- Multi language tutorials with button labels.
- Networking, allows 2 person co-op (driver/snozle)
- Scenarios, including landing wheel fires, engine fires, runway crashes, passenger protection and off-loading, off the runway incidents
- Record and playback

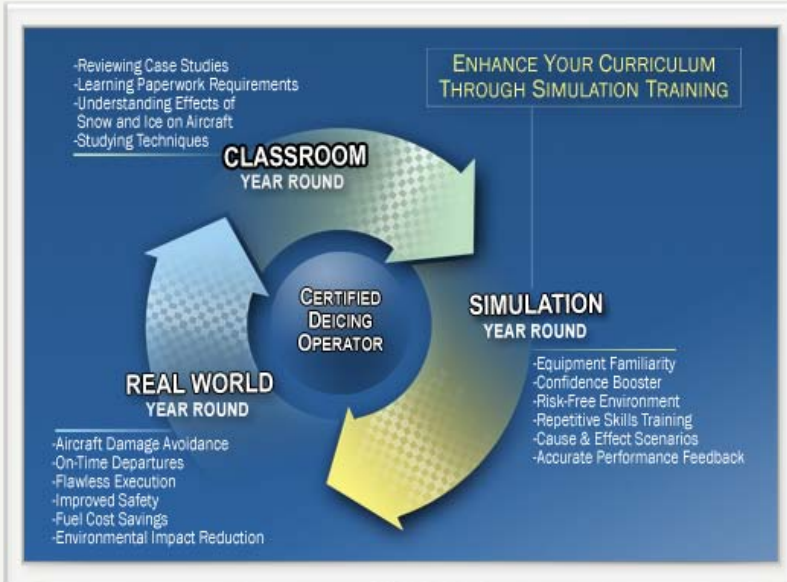

The Snozzle Trainer uses the actual boom controls found inside a snozzle vehicle.

SNOZZLE TRAINING SIMULATOR

Military, Government, and Commercial Clients

Train ARFF procedures in a risk-free environment

Practice attack positions for the most effective piercing

Learn how to respond to various scenarios
